

A Small Seed

Lily found a small seed in her garden.
She did not know what it was, but she wanted to grow it.

She put the seed in the soil and gave it water every day.
She talked to the seed and said, "Please grow strong."

After many days, a tiny green plant came out of the soil.
Lily was very happy. She kept watering the plant.

The plant grew taller and taller. One morning,
a bright yellow flower opened in the sun.

Lily smiled and said, "From a small seed,
a beautiful flower can grow."
